Re: City of Port Wentworth
Stormwater Master Plan
Data Survey and Collection

Dear Interested Citizen:

The City of Port Wentworth has been awarded a FEMA Building Resilient Infrastructure and Communities Grant in April of 2022. The grant monies will allow the City to obtain an inventory of the existing, primary stormwater infrastructure throughout the City. Thomas & Hutton Engineering Co. will be performing GPS Data and Survey of stormwater infrastructure features in connection with the project.

Survey activities will generally include GPS location and survey of stormwater infrastructure within the public right-of-way. It may be necessary to access a drainage feature on private property. We will be conducting these surveys during the period of May 24, 2024, until December 30, 2024. We ask for your cooperation and permission to temporarily access your property for purposes related to gathering the stormwater information required to successfully complete the project.

Survey crews must continue to work uninterrupted to meet the project survey deliverable schedule. Your cooperation in facilitating a smooth workflow is greatly appreciated.

If there are any questions regarding this request, please contact **Mr. Omar Senati-Martinez**, Director of Public Works for the City of Port Wentworth at (912) 966-7427. Thank you for your cooperation and assistance in this matter.

Sincerely,

City of Port Wentworth
